56.                       Picking up a guitar and making beautiful music is a great
      feeling and a big accomplishment. Sadly, most people believe they will never
      learn how to play. That's why we started The Guitar Base – to provide online
      guitar lessons for those searching for an easy, fast, and fun way to learn
      guitar.↵
57.                       There are different ways people have tried and failed to
      learn guitar. In-person instructors and YouTube seem like great options at
      first, but they usually lead to slow progress and staggered results.↵
58.                       It's impossible to achieve your guitar goals with wannabe
      celebrity instructors, or searching through hundreds of broken lesson videos.

        guitar player looking to improve your technique. With lessons that teach you

        lost with repetitive lessons.↵
60.                     At The Guitar Base you can jump right into playing your
        favorite songs by artists like The Beatles, The Rolling Stones, Eagles and
        tons of other popular artists.↵
